# NUMERO UNO

**KWPN  
PREFERENT**

Dear breeders,

We are proud to present to you the new stallion catalogue of De Wiemselbach 2015. Another year, in which we can proudly reflect and look upon the performances of the descendants of our stallions. Over the last year Numero Uno again has emphasized his status being a world class stallion and horse producer. For example his son Van Gogh, who at the moment is very successful in international showjumping competitions, and Hamilton, the recent KWPN stallion champion 2015. Over the recent year we have again joined forces with German top rider Marco Kutscher who in the past has also successfully competed at international level with our stallions Numero Uno and Lupicor. This collaboration has resulted in a successful showjumping season with our stallion Van Gogh. Kutscher and Van Gogh obtained great results at international shows such as Hickstead, Calgary, Doha, Leipzig, La Coruna and Hong Kong. We hope to continue these recent successes during the 2015 season.

Van Gogh dominated the 2014 Dutch national young horses championship. With the champion for 6 years old horses and the vice champion in both the 4 years old as well as 5 years old competitions, Van Gogh was again able to emphasize his status of a successful horse producer.

Also Ustinov received recognition for being one of the best breeding stallions around. Due to the successful performances of his offspring in international showjumping competitions and mare ability tests, our stallion Ustinov was awarded with the "keur" certificate at the 2015 KWPN stallion show. Connect is a new stallion of which we have great expectations for the future. During his ability test in Germany he was the best jumping stallion and also at the KWPN ability test he stood out in all disciplines. He combines a modern bloodtype showjumping model with the best Holsteiner genetics around. A perfect match with the well-known and respected Libero H bloodlines we already offer through our stallions Numero Uno, Van Gogh and Ustinov.

Even more differentiation in bloodlines we get by offering you Great Blue, the interestingly bred son of Plot Blue, and Grodino a talented jumping stallion by Eldorado v/d Zeshoek.

Merited solely to the tireless efforts of top riders Caroline Müller, Marco Kutscher and John Whitaker all our stallions continue to improve and advance.

Upgrade, Ustinov, L'Esprit, Chellthago, Van Gogh and Whitaker have been successful at international shows and will continue to compete at the international level, jumping Grand Prix in 2015.

Also outside of the Netherlands the success of our stallions has not been unnoticed. At several stallion approvals in Germany and Belgium, sons of Numero Uno, Ustinov, Van Gogh, Solitair and Whitaker have been approved

for breeding.

In order to help counteract the effects of the current economic climate, we will be increasing our competition dates in 2015, in order to enhance

the profile of our stallions on the international stage. This in turn will create more awareness for their offspring which will increase the market value for breeders.

By offering you these carefully selected stallions that are bred out of the best European bloodlines, we hope to welcome you as our customer for this year's breeding season. We look forward to speaking with you with regards to the choice of stallions for your mares, and to assist you with your breeding program.

Kindest regards,

Family H.W. Horn

## NUMERO UNO Pref

LIBERO H x LORD CALANDO x AHORN HANN

KWPN 95.3822, 1.69 m, bay, 1995

Breeder: M. van Deurzen, Rips

Numero Uno completed his performance test triumphantly: he received a 9.0 for canter and scored an average of 8.5 for jumping components. His explosive takeoff earned him 9.0 points. Dam Jolanda, like the Olympic showjumping stallion Lux, descends from **Lord Calando**. Grand dam Feinschnitt (Ahorn Hann) supplied, in combination with Gondelier, the national showjumping horse Kapitol, who as a five year- old gave an excellent performance in the world championships for young horses at Lanaken. The mother line continues via the well known stallion Farnese to the mare Fernsicht (Ladykiller xx), who is a full sister to the reputable stallion

**Lorenz**. This famous Holstein lineage, which is registered under number 429, also produced the stallions Aldato (Anblick xx), Heidelberg (Ladykiller xx) and Benedictus (Benvenuto xx). Following a successful show jumping career with European Champion, **Marco Kutscher**, Numero Uno (pref) today has proven himself to be one of the leading sires in the world. Numero Uno, father to eight approved KWPN stallions, is sire to many champions in international show jumping, ability tests and stallion approvals. Horses such as **Tyson**, Tobalio, Van Gogh, Winchester, Unaniem, Romantovich Take One and **Tamino**, who won the silver medal in London, are very successful in international GP competitions.

## USTINOV Keur

LIBERO H x NIMMERDOR x MARCO POLO

KWPN 01.10827, 1.67 m, bay, 2001

Breeder: L. van der Veen-Belt, Heelsum

Ustinov's great exterior and jumping qualities are deeply anchored in his pedigree. His sire is the showjumping horse producer Libero H, a legend in his lifetime. Together with **Jos Lansink** this son of Landgraf I won a respectable series of World Cup competitions and Grand Prix, the highlight being his fantastic victory of the 's-Hertogenbosch **World Cup finals** in 1994. His fighting spirit in combination with his jumping skills and incredible reflexes

made the stallion almost unbeatable that season. In total **Libero H** has less than 600 registered offspring, more than 80 of these are or have been competing at 1.50m or higher in international competition.

With German rider Caroline Müller in the tack, Ustinov competed successfully at international shows such as Moorsele (B), Münster (GER), Verden (GER) and Neustadt Dosse (GER). His first years of breeding have resulted in a great number of successful international showjumping horses such as Dustin, Blueberry, Bestinov and Anatevka who recently won the **GP of Roosendaal** with Dutch rider Niels Knappe.

Due to these great results at international shows, his ranking in the KWPN jumping index and the incredible amount of predicate mares (83%) Ustinov was awarded with the keur predicate at the 2015 KWPN stallion show.

## CONNECT

CONNOR x CONTENDER x LORD

DE 421000160711, 1.69 m, bay, 2011

Breeder: Christiane Mohr, Wöhrden

Connect was one of the most appealing stallions of the Holstein approvals 2013. With his elegant exterior marked by TB, he was one of the crowd's favorites. This son of **Connor** was not only the best jumper of his year but showed thereby also very appealing movements. In particular, the balance and strength of the gallop is remarkable. Sire Connor is like the well-known Chellano Z bred from the direct dam line of **Corrado I**. He is a son of the acclaimed Casall out of the regional priced mare by the legendary Cor de la Bryère.

In the pedigree of Connect, we successively find the Holsteiner stallions **Contender** and Lord.

Out of this famous dam line (Stamm 2067) come many 1.60m successful international jumpers as Ambassador, Waldrick and Canterbury. After his impressive performance at the Holsteiner stallion approvals, Connect has completed his performance test in Germany and Holland. Connect, a modern bloodtype stallion stood out in both of these ability tests, receiving high scores for his jumping and movement skills. At the ability test in **Schlieckau** (GER) Connect received a stunning 9.75 score for jumping talent, the highest score of all stallions that participated.

**Utascha** (Lux Z x Indoctro) and the stallion **Tornesch** (Lux Z x Libero H), they belong to the best show jumpers worldwide.
